

The 29th Symposium
on Soil and Groundwater
Contamination and Remediation

Scheduled for June 13-14, 2024
in Yamagata City, Yamagata, Japan

Geo-Environmental Protection Center (GEPC), Japan

Organization

- Co-hosted by:
 - Japan Society of Material Cycles and Waste Management
 - Japanese Geotechnical Society
 - Japanese Association of Groundwater Hydrology
 - Japan Society on Water Environment
 - Geo-Environmental Protection Center (GEPC)
- Supported by:
 - Yamagata Prefectural Government
 - Yamagata City
 - Some other organizations related to soil and groundwater contamination and remediation

Feature

- One of the largest research conferences in Japan on soil and groundwater contamination issues
- Held annually at different places
- Themes to be presented and discussed; e.g.
 - Investigation into the cause and pathway of soil and groundwater contamination
 - Migration mechanism of contaminants
 - Evaluation of effects and risks of contamination
 - Prevention measures and remediation technologies
- Structure:
 - About 100 presentations and posters by researchers mainly from academia and industry
 - Exhibition of technologies by about 20 companies
 - More than 400 participants expected

Outline

- Date: June 13-14, 2024
- Venue: Yamagata TERRSA (in Yamagata City, Close to Yamagata JR Station)
- Language: Mainly in Japanese. Presentation in English is accepted.
- Participation fee:
 - Regular fee: 12,000 Yen (pre-registration), 15,000 Yen (on the day)
 - For students: 4,000 Yen (pre-registration), 5,000 Yen (on the day)
- Reception: Planned (Details will be announced later.)
- Application for presentation and poster session: By January 25, 2024
 - Abstract submission: By February 14, 2024(See the abstract format in English shown in our website)
<https://confit.atlas.jp/guide/event/kenkyu29/static/submission>
- Pre-registration for participation: By May 11, 2023
- Contact for pre-registration and participation: GEPC
(Hiromasa KINOSHITA, E-mail: kinoshita@gepc.or.jp)
- See details in our website (in Japanese): <https://www.gepc.or.jp/kenkyu/29th/index.html>

Message

Although most of presentations and poster sessions are conducted in Japanese, we currently have some presentations in English and some scientists/engineers from other countries participate in the discussion.

We welcome many oversea participants and hope to have exciting discussions!
